Police failures following indecent approach to children

Two police officers have been disciplined following a complaint to the Police Ombudsman's Office about a police response to reports of a man making indecent approaches to three young girls. The Police Ombudsman, Dr Michael Maguire, found that police subsequently went to great lengths to find this man, without success, but these efforts had been undermined by a number of failures in the early part of the investigation.

National Crime Agency now under remit of Office

Officer disciplined for making false record

Officer 'to be commended' for assault investigation

Taser use justified in ten incidents

Man not sent to jail on basis of inaccurate information
